The department has issued instructions that the transport Egbert be put in readiness for immediate service, but sailing orders are withheld until the officials can satisfy themselves that the Government is not being imposed on in the matter.

BASEBALL PLAYER'S TRIAL. Bud" Taylor Charged With Murder of Former Sweetheart.

the baseball player who shot and killed Ruth Nollard, a former sweetheart, in this city March 2, was placed on trial here to-

day.

Taylor's crime was unusually deliberate. He rented a room on a busy street near the center of the city and lay in wait for his victim several days. Concealed behind lace curtains and armed with a rife, he fired the fatal shot in midafternoon, taking careful aim to avoid hitting a sister of the victim who accompanied her.

Taylor is subject to epileptic fits, and his attorneys base their case on the plea of insanity.

RAILROAD NEWS FROM ALL POINTS.

George Gould Actively Interested in Pushing Wabash Extension to Pittsburg.

QUICK COMPLETION EXPECTED.

Contract Divided to Obtain This Result-Pennsylvania and Western Union-Appointments-General Notes.

New York, Sept. 26.—Despite all rumor of Pennsylvania opposition to the Wabash entrance to Pittsburg, and there have been scores of such reports in the last several months, George Gould is pushing the actual work of construction into the Smoky City with all the energy he is capable of, and this means a great deal to these familiar with the activity he has already displayed

in the railroad world

At present ten miles of the Pittsburg.
Carnegie and Western Railroad, the Wabash
extension, are under way. Yesterday James Carnegie and Western Railroad, the Wabash extension, are under way. Yesterday James W. Patterson, chief engineer of the line, announced the awarding of contracts for the construction of twenty-eight miles of road from Bridgeville. This will carry the extension to the Ohlo State line, from which latter it is proposed to build west to a connection with the Wheeling and Lake Erie at Jewett, sixty-two miles from Pittsburg. This will give the Gould lines direct communication with the lake ports, Cleveland, Huron and Toledo. At Toledo the Wabash lines begin. Actual work on the contract just awarded is to commence within two weeks and the time limit, under which it must be finished, is one year.

To make more certain the completion of the work within one year, the contract has been divided among a number of contractors. It has also been arnounced that the contract for the erection of the cantilever bridge across the Monongaheia River is likely to be let within a few days.

First Vice President J. P. Green of the Pennsylvania Railroad is authority for the statement that no trouble is expected in the matter of renewing the contract between that railroad and the Western Union Telegraph Company. This contract expired on September 20, and terms for a new contract are now under discussion. Mr. Green says that the Pennsylvania management has had no idea of breaking off relations with the Western Union company. There may be some changes in the provisions of the contract, but thus far there has been no friction between the two companies.

WILL BE UNIQUE STRUCTURE.

New Suspension Bridge of Wabash
Across the Monongabela.

Pittsburg, Pa., Sept. 25.—As an evidence of the determination of the Wabash to have a very solid connecting bridge with Pittsburg, the work on the new bridge abutments can be referred to with interest to all readers in Western Pennsylvania. The abutments built four years ago by the original projectors of the West End line at an expense of \$30,000, are being removed entirely. Under the base of these abutments caissons will be sunk to a depth of forty feet, and piles driven to the old river bed, and on these piles concrete will be placed for a depth of twenty feet. Over this concrete massive stone work for the gigantic suspension bridge will be erected. The contractors have been notified that all work done will be under the supervision of the most expension of the most careful mechanical engineers, and will be designed to support a bridge which will be one of the most substantial in the world.

It is interesting now to note the fact that Pittsburg is a great bridge-building center. The Fort Wayne bridge to span the Monongabela, the new Panhandle bridge, the new Pittsburg and Lake Priebridge at Homestead, and a new bridge planned to connect lower Allegheny with the McKees Rocks district are enterprises which will cost close to \$5,000,000 in the aggregate.

The Wabash bridge, as now planned, will

aggregate.

The Wabash bridge as now planned, will be a splendid structure with no central plers, and will be 80 feet above the river level. The last span from the river abutment to the tunnel will cross the Panhandle and Pittsburg and Lake Erie tracks. and will have a foundation on the crest of the Mount Washington cliff twenty-five feet above the Panhandle tracks, which are n being graded on a new level.

PAPER AND WOOD-PULP INDUSTRY.

PAPER AND WOOD-PULP INDUSTRY.

Total Capital Invested Has Almost Doubled Since 1880.

Washington, Sept. 26.—The paper and wood-pulp industry of the United States, according to a preliminary census report, issued to-day, has a total capital of \$187,507,713, a gain of 88.5 per cent since 1890. The number of establishments is 783, a gain of 17.6 per cent. The value of products is \$127,-286,162, an increase of 61.2 per cent. The average number of wage-earners is 49,655; total wages, \$20,746,425; miscellaneous expenditures, \$10,184,105; cost of materials used, \$70,-130,306.

Washington, Sept. 26.—The Treasury Department to-day purchased a total of \$25,710 in bonds, divided as follows: Threes of 1908, 115,060; fours of 1907, 575,550; fours of 1923, 533,000. The last were bought for 1.40 and the other lots at the rate of 1.25.

BIG PURCHASE OF BONDS.

WESTERN FREIGHT RATES.

Great Demoralization.

New York, Sept. 26.—The Journal of Commerce says: Although reports of extensive rate-cutting by Western and Eastern lines are being widely circulated, officials of trunk lines and Western roads, and shippers as well, declare that rates are being well maintained, and that, in fact, the situation has rather improved in this respect, and that rates are firmer than they have been for several months past.

It is said that rates out of New York to all Missouri River points are being well maintained, and there is no cause of complaint over the situation in any part of this

territory. Rates to St. Paul are in bad condition, but this is nothing unusual, and is accounted for by the competition of the lake transportation routes. This, however, will soon be remedied, it was said, through the closing of lake navigation, and the Western lines have already announced an advance in rates in anticipation of this, the new tariffs going into effect on October 21. In this connection it is interesting to note, also, that trunk-line officials are now considering further changes in classification, which, if adopted, will practically increase rates on many kinds of merchandise.

Order of Railway Clerks. The order of Railway Clerks of America, which was organized at Sedalla, Mo., a year ago, will hold its annual meeting in St. Louis on October 21. The sessions will last the greater part of the week. It is proposed to establish a mutual aid fund, and this matter will be discussed and neted upon at the meeting. The local committee will provide suitable entertainment.

Western Passenger Association lines have granted reduced rates for the annual meeting of the Grand Lodge. A. F. & A. M., of Missouri, October 15 to 18, at St. Louis, and for the annual meeting of Grand Chapter, Order of Eastern Star, October 24 to 25, at Kansas City.

Several 81, Louis lines will run cheap excursions to St. Louis for the Velled Prophet's parade and ball, on October 8.

-Officials of the transcontinental roads are now giving serious attention to the increase in quantity of westbound mail matter. It is said that the mails for the Westhave now become so large that the companies cannot make any money out of their present contracts with the Federal Government. These conditions, however, cannot be remedied until new contracts are made, which will not be for two years.
